

## THE PREMIUM APPEARANCE OF TILE WITH THE STRUCTURAL STRENGTH OF A STEEL SHEET

### PRODUCT DESCRIPTION & FEATURES

Versatile® is a premium roofing profile with the appearance of a tiled roof but the strength and lightweight advantages of steel. It is available in a range of colours and in various thicknesses. Local manufacturing ensures that Versatile® is available in even the smallest quantities and may be supplied in bespoke lengths.

Versatile® is particularly attractive in a textured finish. Refer to page 26 of this manual for more colour options.

### ROLL TOP RIDGES

Versatile® is sold as a complete system, with its own distinctive roll top ridges which are designed to complement the profile.

#### NOTCHING:

The roll top ridge may also be notched to allow it to seat into the profile as a closure.

During installation, ensure that the Versatile® sheets are lined up to fit the notches of the Roll Top Ridge on both sides of the roof. If laying sheets from left to right on the one face, the sheets on the opposite face should be laid starting from the same side.

### LENGTHS & ROOF PITCH

Versatile® sheeting can be ordered in any length, subject to transport limitations, up to 13,2m. Longer lengths require special transport arrangements.

Versatile® can be used on a roof pitched from as low as 10°.
